

LARGE DIAMETER “DEEP HOLE DRILLING”

SOLUTION: LARGE DIAMETER SINGLE FLUTE GUNDRILL

Are you currently outsourcing large diameter deep hole applications due to the lack of BTA capabilities?

Are you currently using an inserted boring bar requiring a peck cycle?

Star SU's large diameter single flute gundrill provides a solution. This uniquely designed tool is manufactured with a steel body, brazed insert carbide cutting blade and carbide support pads.

SIZE RANGE:

- Diameters 1.50" to 3.00"
- Overall lengths up to 48"

REWORK PROGRAMS:

Star SU offers regrind and retipping services that provides a consistent return to the original OEM grind. We are able to provide this service on any other quality manufacturers' products as well.
