

Star Cutter Company Job Description

Job Title: Manufacturing Engineer **Location:** Tawas Tool Company
East Tawas, MI
Reports to: Manufacturing Engineering Supervisor

General Summary

The Tawas Tool Company is seeking a Manufacturing Engineer to join our team. He or she will work to develop and optimize the manufacturing processes of gear cutting tools and other precision cutting tools. The Manufacturing Engineer will need to be able to contribute in a team environment as well as collaborate with the production, quality and design teams.

Responsibilities

- Identify and complete Continuous Improvement activities to optimize workflow processes and manufacturing operations using methods such as PDCA, Six Sigma and Lean
- Plan and manage engineering projects including interacting with vendors as the technical lead
- Prepare specifications for purchase of materials and equipment
- Evaluate internal and external failures to determine and institute corrective actions
- Develop new products and improvements to existing products
- Collaborate with the production, design and quality teams in each of these tasks

Qualifications

Required:

- Bachelor of Science Degree in Mechanical Engineering or related engineering field
- Ability to work in cross-functional teams
- Effective communicator; written and verbal, including presentations
- Organized and analytical
- Proficient with Microsoft Suite and Data Analysis programs

Preferred:

- Ability to operate CAD/CAM programs
- Experience in a manufacturing company

We offer and competitive wage and benefits package. We are an EOE.
